

**2019-2020: Samantha Creech**

Samantha Creech is a senior at UNC Asheville from Horse Shoe, NC, majoring in physics and minoring in both astronomy and math. Samantha is the president of the “Society of Physics Students” chapter at UNC Asheville and works as both a Lookout Observatory docent and as a supervisor in the Outdoor Programs office. She has conducted undergraduate research on galaxies under the guidance of Dr. Britt Lundgren, and has presented her work both on campus and at a national AAS (American Astronomical Society) meeting. In the summer of 2019, Samantha participated in an REU (Research Experience for Undergraduates) program at the University of Wisconsin, working with scientists on projects for the IceCube South Pole Neutrino Observatory.
