

The 2020 Hunter's Moon is also a Blue Moon!

The **Hunter's Moon** is defined as the first full Moon that occurs after the [Harvest Moon](#) each year. And a "Blue Moon" is defined as the 2nd full Moon in the same calendar month.

This year's Harvest Moon occurs on October 1st; that makes this month's 2nd full Moon, that occurs on **Oct. 31st**, a **Hunter's Halloween Blue Moon**. That night it will brighten our sky from dusk to dawn, but it won't appear "blue"!
