

The 2021 Hunter's Moon Occurs on October 20th

The **Hunter's Moon** is defined as the first full Moon that occurs after the [Harvest Moon](#) each year.

This year's Harvest Moon occurs(ed) on September 20th – very near the northern hemisphere's Autumnal Equinox.

This Hunter's full Moon will rise shortly after sunset in the Asheville area, and it will be with us all night, as it crosses the sky from east to west, setting at dawn.
