

The 2023 Harvest Moon is Full on the night of September 28th/29th

On the night of **September 28th/29th**, this year's **Harvest Full Moon** will brighten our evening skies from dusk to dawn.

The "Harvest Moon" is defined as the full Moon that occurs closest to the northern hemisphere's autumnal equinox. This year's fall equinox occurs at 2:50 a.m. EDT on September 23rd.

Although this year's Harvest Moon occurs after the autumnal equinox, it can also occur before the fall equinox.
