

**2021-2022 Zach Savery**

Zach Savery is a very worthy recipient of the Carolyn Keefe Scholarship. He is very knowledgeable about the night sky and before graduating, was one of the leading docents at Lookout Observatory. He did research in astronomy using Gaia data with Dr. Britt Lundgren at UNC-Asheville. He went on to pursue his PhD at the University of Delaware studying white dwarf pulsations using TESS and ground based data.
