

## The 2025 Harvest Moon

On the night of **October 6/7**, this year's **Harvest Full Moon** will brighten our evening skies from dusk to dawn.

The "Harvest Moon" is defined as the full Moon that occurs closest to the northern hemisphere's autumnal equinox. This year's fall equinox occurs at 2:20 p.m. EDT on September 22<sup>nd</sup>. Although this year's Harvest Moon occurs after the autumnal equinox, it can also occur before the equinox.
